

Information Sharing Opt-Out : Rio -> HHR

Dear Southern Health NHS FT,

I have opted out of the Hampshire Health Record via my GP surgery.

Please would you kindly ensure that the information sharing setting on my Rio record is amended to turn **off** the "feed" from Rio to the Hampshire Health Record (HHR) for my data.

I understand that this action will in no way limit the ability for Southern Health clinical staff to access my Rio record as and when required.

Thank you very much.

Yours sincerely,
