# PAT HARRY

UX DESIGNER & DEVELOPER

---

## SUMMARY

I design and build products that matter. Coming from a background in music, I am keenly aware of the value of a well-crafted user experience. I strongly believe in the adage that “when you work onstage, audience engagement is the only KPI,” and I carry that core principle with me into every new situation. Whether I’m conducting a usability test, building a web UI, or performing onstage, my attention is always on the end user.

---

## EXPERIENCE

- **UX/UI DESIGNER & PROTOTYPER**  
TipTap | Fall 2016  
Working toward TipTap’s launch on the iOS app store, I built an interactive prototype using Sketch and Flinto. I also put together a set of wireframes for the updated version of the app.
  - **UX CONSULTANT**  
D-Bird.org | Spring 2015  
I worked closely with the New York City Audubon Society on a mobile-first overhaul of their bird fatality data collection tool called D-Bird, which can currently be found at -- <http://D-Bird.org>
  - **BASS PLAYER & BACKUP SINGER**  
Musical Theater | 2011-2014  
I appeared in a show called “A Night with Janis Joplin,” performed at regional venues around the country, and ultimately did a run on Broadway. I played on the original cast recording.
  - **FREELANCE MUSICIAN**  
OR, CA, NY | 2004 - Present  
I have over a decade of extremely diverse playing experience. I have even performed onstage with Mike Tyson (FYI - it was weird; feel free to ask me about it).
- 

## EDUCATION

- **PORTLAND CODE SCHOOL**  
Full Stack Javascript Immersive  
In the summer and fall of 2015, I took a 12-week fulltime Javascript immersive course.
- **GENERAL ASSEMB.LY**  
User Experience Design Immersive  
In 2014, I participated in a 10-week fulltime course in UX Design at General Assemb.ly in New York.
- **PORTLAND STATE UNIVERSITY**  
Bachelor of Music  
I have an undergraduate degree in Jazz Bass Performance.

## SKILLS

- Usability / Accessibility
- User Stories / User Flows
- User Research / Testing
- Interactive Prototypes / Wireframing
- Information Architecture / Content Audits
- Adobe Photoshop / Illustrator / InDesign
- Omnigraffle / Balsamiq / Sketch
- Axure / InVision / Flinto / Principle
- HTML5 / CSS3 / Javascript
- Node.js / npm / Express.js
