Essay Questions:

What changes, if any, could be made to the class that would have helped you to learn more? What could the instructor have done to make the course an even better learning experience?

nothing, the teacher was excellent!!

What did you like most about the class and your instructor?

Dr. Rodrigo is fresh and innovative in her approaches to teach. I would recommend her to any student of any age. She is invested in the learning process. I did things in her class that I never imagined possible.

Enthusiastic and well informed

Professor Rodrigo is an enthusiastic, knowledgeable professor.

She is very informative and knows the subject very well!! I love how she structured the course.

What factors about this class contributed the most to your learning? What aspects of this class helped you to learn to think critically?

I loved that it was all hands-on.

The trial and error, but that also proved to be frustrating at times. Working with new technology and media involves a learning curve sometimes.

What factors about your own performance helped you learn the most? What did you do to facilitate your learning?

It helped that I did all of the readings and contributed my thoughts in class.

Essay Questions:

What changes, if any, could be made to the class that would have helped you to learn more? What could the instructor have done to make the course an even better learning experience?

| |
|---|
| More time for focused, critical discussion of readings. |
| Nothing-- this class was an excellent experience in every way. |
| The outline/description of major/final project assignments were wordy and confusing. Some info was conflicting. Need to streamline major assignment requirements/outline more concisely. (this was probably due to prof's first time teaching this as grad class) |
| time in class to explore some of the tech applications |

What could you have done to make the course an even better learning experience?

| |
|---|
| I believe my strength in course was participating at great length in discussions. Also, I read every reading assigned to prepare for class. |
| I could have done the readings more consistently |
| Only take one class while working part time. |
| |

What did you like most about the class and your instructor?

| |
|---|
| ...class projects, blog as your portfolio, course readings, examples, etc. |
| I like that Dr. Rodrigo uses a variety of learner-centered activities and does not strictly rely on lecture. I like that she is enthusiastic about the subject matter she teaches and that she promptly responds to email inquiries. |
| Shelley is an amazing teacher! She was always open to new ideas and made sure that all of our voices were heard. Of all of my classes I retained the most information from this one (due to the application of information in our blogs). I seriously loved her and I hope she becomes a permanent faculty member at ODU. |
| Shelley is so nice and willing to help you with absolutely anything. She made it clear that her goal was to help us learn as much as possible about teaching with technology. Even when technological glitches happened, she used them as teaching opportunities. I've never had a better or more informative class at ODU. |
| The instructor is very passionate and enthusiastic about subject. She allowed for input from everyone and encouraged everyone to participate. Any time I had questions, she always answered in a way that was understandable and workable. I like the low stakes grading for learning the new technologies available to writing teachers. |

What factors about this class contributed the most to your learning? What aspects of this class helped you to learn to think critically?

| |
|---|
| ...trial and error approach to learning the tech applications, class projects, readings. |
| Discussions were helpful..helps make meaning of readings. Low stakes grading on learning and working w/new technologies |
| The hands-on and collaborative activities. |
| The reading and thinking blogs were really effective. It made me actually read and apply the information from our readings. I will keep my blog with my notes and citations and refer to it throughout the rest of my college career. |

Essay Questions:

We had lots of low-stakes assignments in which we got the chance to play around with new technologies. We were expected to do this on a weekly basis and report our findings. I learn best by jumping right in, and I loved that this class encouraged that.

What factors about your own performance helped you learn the most? What did you do to facilitate your learning?

| |
|---|
| I am good at using technology so it helped me to navigate more efficiently than most. |
| I attended all classes and participated. |
| Jumped in trying a variety of new technologies even though I was totally reluctant to try them. |
| asking questions |
