

KERRY SNYDER

Developer + Designer
Downtown Los Angeles

PAST ROLES

Founder & CXO

@ ÆTHER LLC in Los Angeles, *January 2016*

- designing an augmented reality wearable social network
- designing a streamlined flow for contact entry and recall

Lead Experience Designer

@ SolarCity in San Francisco, *January 2013 - November 2015*

- worked with teams all over the company to understand our greatest challenges and opportunities
- spearheaded the design and development of go.solarcity.com, which distilled our multi-week sales process into a ten-minute online DIY experience
- formed a UX design/front-end development team dedicated to unifying the SolarCity customer experience
- interviewed and hand-selected dozens of developers and designers as we built the front-end/user experience team

Product Manager & UX Designer

@ Disney Interactive in Palo Alto, *February 2011 - November 2012*

- helped to build Disney's new user identity platform, starting at the whiteboard, now with over 300M users
- designed products focused on media discovery, gamification, virtual goods, family shopping, and [secured a patent in online personal integrity](#)

Founding Team Member & Content Strategist

@ Togetherville in Palo Alto, *March 2010 - February 2011*

- was employee number three
- pioneered and launched the first real-identity social media network for kids and their families
- played an integral role in building the company, defining its products, and bringing about its acquisition

Co-founder

@ Third Prime LLC in Portland, *January 2009 - March 2012*

Along with four industrial designers, I founded this consumer and health-related product design firm in my last year of law school. I set up the majority of the company's infrastructure, while also helping to design and fabricate our prototypes and products.

Research Assistant, Intellectual Property Law

@ Lewis & Clark Law School in Portland, *May 2008 - May 2009*

Under the tutelage of the head of the IP department, I explored foreseeable collisions between technological innovation and intellectual property law, specifically with regard to digital music copyrights. I also edited and proofread her newly authored IP law casebook.

Research Assistant, Pharmacology

@ UIC College of Medicine, *1999 - 2001*

Under the mentorship of Professor Babich, I assisted in the endeavor to genetically introduce antibodies into lung cancer cells in order to trigger programmed cell death.

IDEAL ROLES

- User-focused tech lead on a groundbreaking web app team
- User advocate among stakeholders, designers, and engineers
- Experience/interface/interaction developer/designer/engineer

SEEKING

A lean team of gems* that asks the hard questions about the big problems, then answers them by building swiftly.
