**The Medicine Wheel**

A Tool for Personal and Planetary Healing and Transformation!

Presented by Maggie McLaughlin, International Biorelativity Coordinator

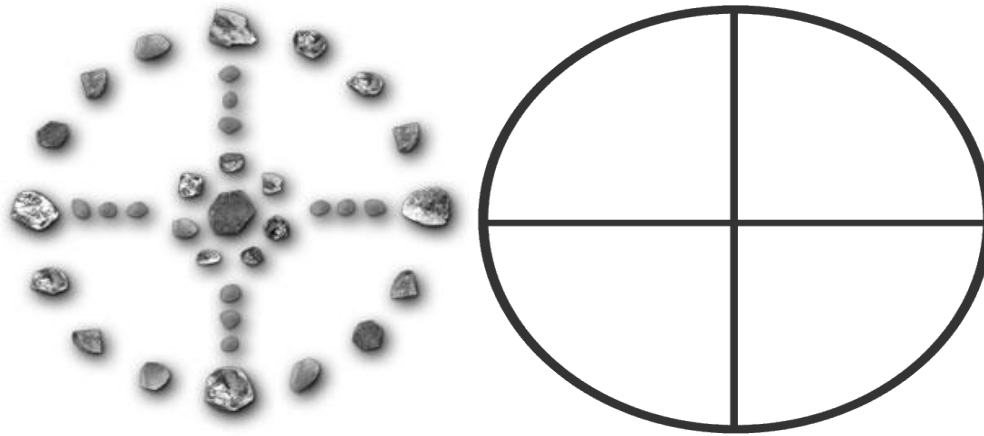

**Origins of the Medicine Wheel:**

According to the December 3, 2011 David Miller's channeled message of Juliano on the Medicine Wheel, sometimes referred to as "Sacred Hoops", the circle geometry as symbolized in the Medicine Wheel, and also seen in crop circles, is a gift from our galactic Star Family, a group of higher masters similar to the Galactic Council. The Medicine Wheel is a relatively simple geometric pattern that corresponds to communication patterns of humans. Crop circles are more highly advanced energetically with geometric patterns related to deeper energies within the Earth.

There has been a unique relationship established between the Star Family and the Native peoples of the planet and Native American Peoples, playing an important role in the culture and spirituality of the Native Americans. One of the main reasons for this special relationship is that in earlier times, Native Americans lived under the skies, interacting with our Star Family directly on a nightly basis.

Our Star Family oversees the evolution of Earth energies and other planetary energies throughout our galaxy. Some of our star family known to us are the: Pleiadians, Arcturians, Higher Sirians, Antareans, Andromedans from our sister galaxy. Our Star Family has created an expansive Medicine Wheel that resides energetically over Earth and is always available for us to tap into its energetic harmonic energy field at any time.

The medicine wheels were first discovered between 4500-5500 years ago can be found all over northern USA, southern Canada South Dakota, Wyoming, Montana, Alberta Saskatchewan.

(It is suggested that at the center of the galaxy is a “black hole” surrounded by exploding stars giving the center the appearance of a great sun. The black hole might be thought of as a portal”)

The Medicine Wheel represented by the circle is a galactic symbol, a communication tool with the Earth and her Feedback loop system and with the galaxy, sending and receiving galactic energies. It is a tool to be used for harmonization! It is a physical manifestation of spiritual energy and **represents harmony and harmonization** of the elements or intentions created as symbols within the circle of its wheel.

. The Medicine Wheel represents a base to anchor the consciousness at personal, collective and planetary levels in the context of the life experiences on this planet and beyond in an even larger context of creation. It is a larger awareness about existence and life not only related to Mother Earth, the spirit of the planet and the connection of man with this spirit and all HER earthly kingdoms and planes, but also the awareness about life itself on this planet and the role of the humans and the Earth in a larger context of creation at the solar system, galactic and universal level. **The Medicine Wheel is a bridge, a portal between Mother Earth and Father Sky, allowing for the energy of harmony, balancing and aligning of energies.**

**The Medicine Wheel is a tool that allows for harmonization of energies, bringing all life into unity. Some understandings:**

**Harmonization:**

- Is the opposite of polarization
- Amplifies and increases your powers of harmonic thinking.
- Harmonic energy has a multidimensional energy field and radiates harmonic light.
- When you build a Medicine Wheel this establishes a harmonic energy field that can be used to send harmonic energy to Earth's feedback loop system
- The more Medicine Wheels there are on Earth, the more harmonic energy is manifested.
- A Medicine Wheel can communicate with all Medicine Wheels on the planet exponentially increasing its harmonic power.
- Harmonic energy can help hold your thoughts and communicate those telepathic thoughts to the Earth. Newer thoughts/vibrations are now needed to change and repair earth and energetically help Earth upgrade in preparation for Ascension.
- While physically in your Medicine Wheel or thought projected there, the medicine wheel has the ability to receive the highest light from the center of the galaxy. You will be able to send this harmonic light in personally and outward to where you intend, including mother earth.

When the energies are in harmony and are balanced, then healing can occur for your own personal needs; for the Earth and that which is manifested as out of balance; our relationship with our solar system, the galaxy and the universe. Harmonic energies provide the possibility of healing of all that is out of balance and harmony.

**Manifestations of the Medicine Wheel and Construction**

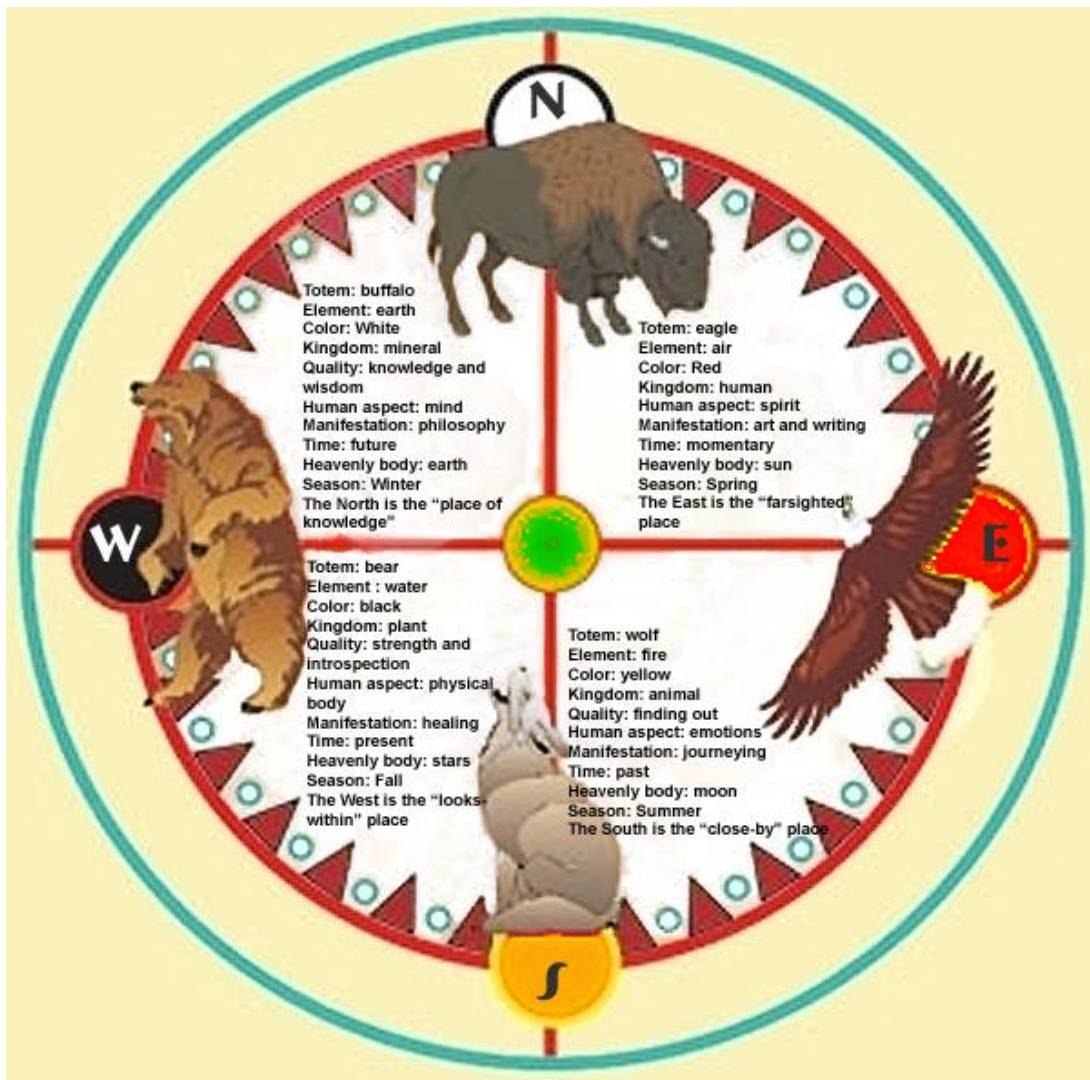

The Medicine wheel can take many different forms. It can be a piece of art or an artifact, a painting or it can be a physically build on the ground. The movement in the Medicine Wheel while in meditation is generally clockwise or in the direction of the sun's movement in the sky. This helps with the alignment with the forces of nature, like gravitation, sunrise and sunset.

Different tribes interpret the Medicine Wheels in different ways but generally the wheel is represented by four different directions (East, South, West and North); as distinct colors; stages of life; seasons; aspects of life; elements of nature; animals; ceremonial plants; central values of life.

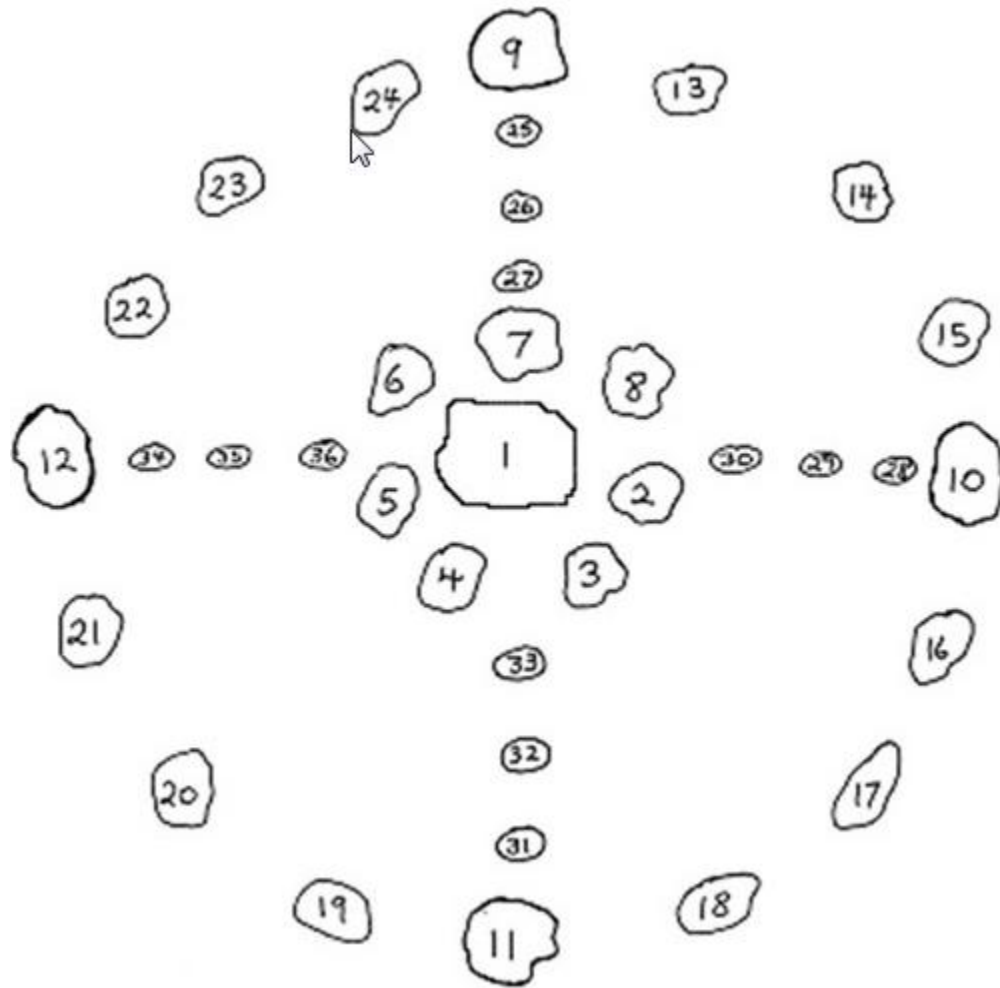

Presented on the monitor now are differing representations including artifacts, art and formation of the wheel on the ground.

## Diagram on how to put a medicine wheel together!

The traditional construction of a Medicine Wheel with stones, can be pictured above.

**Start with the middle stone and place remaining stones per diagram starting with the East, moving clockwise to the North.**

- One begins in the middle by placing a stone (stones/crystals can be chosen randomly or through the meditative process). Center is the touching of spirit; the pure of heart, the truth as everything extends from the circle and everything comes together in the middle.
  - Used for ceremony,
  - Place of love
  - A centered and grounding area

- This middle stone or space is surrounded by a circle of stones with spokes or lines of rocks radiating from the center and looks like a wagon wheel on the ground. Then stones are placed to connect the “spokes” forming the outer circle.
- There are many variations from this basic structure. None of them are wrong based on your loving intent.

### **Purposes of the Medicine Wheel:**

- Helps anchor consciousness at levels:
  - Personal
  - Collective
  - Planetary
  - Galactic
  - Universal
- Personally:
  - Rituals
  - Dance
  - Visionary journey/Shamanistic
  - Native spiritually
  - Potential astrologically important
  - In a meditative process starting with the East and its symbolism moving clockwise back to the north.
  - Helps us understand this reality we are in/collective and society reality in relationship to the environment in context of our experiences here on Earth.

### **Incorporating the Medicine Wheel in our Biorelativity:**

- Use the Star Family Medicine Wheel above Earth
  - Call down into the area you are working on and trying to create balance and harmony.
  - Bring it down into the powerful Ring of Ascension to assist in focused arcan power of intention for the meditation. Place the intention in the center circle.
- Use medicine wheel to balance the relationship with the sun, the galaxy, universe with the Earth.
- Use the Medicine Wheel for alignment between all cycles, all directions, all weather patterns.
- Use the Medicine Wheel for sending and receiving information from/to Earth/Galaxy/Universe.
- Bring four elements in balance by bringing them into the harmonizing energy of the medicine wheel. May be used in many situations where the elements are out of balance or there are Earth traumas.
  - Example: Australia-too much water and too much drought (place the medicine wheel over Australia, or other areas, regions, countries, etc. and intend balance of

the elements. Africa in the same situation with tons of drought with consequences on personal, social, economic levels, etc.

- Medicine network: Connect with all medicine wheels on the planet by physically standing in the center circle or a direction you are working with and calling for connection; or intend if not in the traditional medicine wheel
  - Able to ask for information
  - Send information
  - Send to extreme planetary energies such as severe drought and severe flooding
- Sending balancing information/energies into Earth's Biofeedback loop
- Sending balancing information throughout the meridian system
- You can thought project the symbol of the Medicine Wheel to any situation, any traumatized area within or on Earth, her feedback loop system, her meridians as examples etc. with your arcan power of thought and intention for harmony, balance, allowing for healing.
  - Over areas of human conflict
  - Into the Noosphere and the collective unconscious with the intention of harmonization.
- We recommend that every PCOL, PORL have a Medicine Wheel so that these powerful sites of Quantum Light can connect strongly with the network of the harmonization energies of The Medicine Wheel, exponentially increasing the harmony/balancing energies to assist in Earth's and Humanity's Ascension.

As we are able to define more possibilities for harmonizing and balancing power of the Medicine Wheel, we will place this information into the presentation on our Resource Library. If you have suggestions, please email your suggestions to either Jane or myself.

**The Medicine Wheel is a powerful tool of balancing, harmonizing as it is a central point/portal between our Mother Earth and the Galaxy and Universe.** It's powerful harmonizing energies can be used in all situations where there is a need for harmonization and balance...areas of polarization that need help shifting to the Higher energies.

Thank you!!
