End Game

Play continues for four rounds, at which point the player whose HUMAN ROADY has acquired the most items wins. In the case of a tie, the player the most unused acquired GRUDGE locations wins. If it's still a tie, well, at least you aren't going to be fed to the Snubardal Globber Beast. This time.

Variations for Four or More Players

HUMAN Roady Cards

In a four or more player game, there will be at least one ALIEN ROCKSTAR with two or more HUMAN ROADIES. Make multiple copies of the HUMAN ROADY cards. Since each HUMAN ROADY interprets their ALIEN ROCKSTAR's name differently and ALIENS tend to act differently towards different HUMANS, ROADY cards can still be filled out as normal with each HUMAN choosing their ROCKSTAR's name and characteristics. To fill in ROCKSTAR items, pass the ROADY cards to the left until all the spaces are filled in.

Movement of the GRUDGE Token

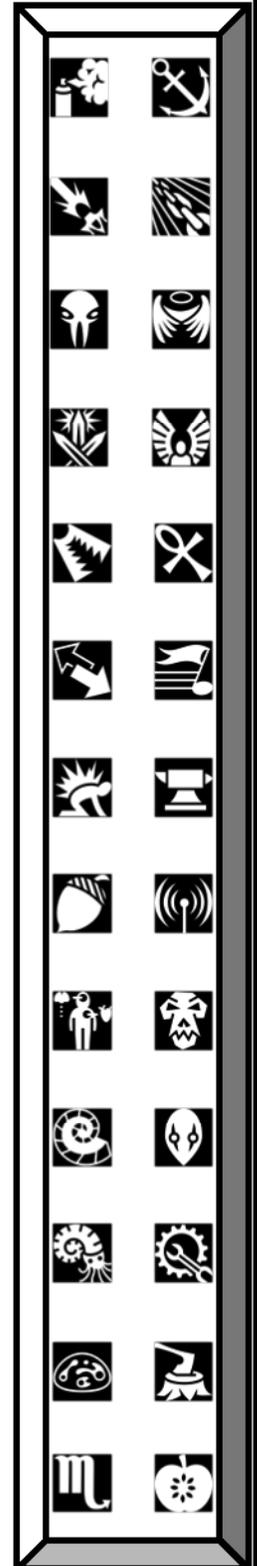

In the case of games with more than 3 players, the starting GRUDGE player continues to move to the left each round (i.e. Round 1 = player 2; Round 2 = player 3; Round 3 = player 4, etc.). The goal is for each HUMAN Roady to square up against a different GRUDGE each round.

ALIEN ROCKSTAR Icon Descriptions

"Worm" – a white picture on a black background. The icon shows a multi-legged, four-eyed wormlike creature with pincers emerging from an apple.

"Brain Freeze" – a white picture on a black background. The icon shows an oval that could be interpreted as a human face with two eyes, a grin, and a snowflake where the brain would be.

"Paper Lantern" – a white and black picture on a black background. The icon shows a white lantern shape in the top left corner, and a black and white human silhouette on the right side. The lantern appears to be partially illuminating the human.
