## ILLUMINATE S/S 14

The ILLUMINATE collection is inspired by Esoterism, extrasensory and secret knowledge focused on illumination and the Renaissance epoch, an age of thinkers believing in liberation & freedom learned through scientific thought.

Frida Khalo and Salvador Dali are the muses of ILLUMINATE S/S 14. These surrealists were working on the edge of consciousness, revelation and hallucination. They were inspired and influenced by their sensual loves Diego Rivera and Gala.

ILLUMINATE has strong, distinctive silhouettes. Tunics, shirts and dresses have characteristic, repetitive cuts. Intricate sewing technics form soft and informal shapes with precious silk and cottons. Ania Kuczyńska has created a collection full of sensual, discrete details with delicate and sophisticated particulars.

Colours of ILLUMINATE
