

# Just A Day

---

---

*Drift away, watching the sun slowly fade  
Catch a break, wait for the moon to awake  
They say you won't be happy 'till you own the world  
Tell me now, I feel pretty close to having it all  
Having it all...*

*Say it's never too late  
Just take the runway  
I'll be your flightmate  
I'm gliding high  
Don't ever stop reaching  
Keep the horizon bright  
And fly*

*Fading out, you're lost in the darkness inside  
Turn it down, there's not a cloud in the sky  
Slowly all the pieces fall into place  
Anytime you will know how, you get your own way  
Your own way*

*Say it's never too late  
Just take the runway  
I'll be your flightmate  
I'm gliding high  
Don't ever stop reaching  
Keep the horizon bright  
And fly*

*Sometimes it kills, you have to find a way  
Step outside yourself  
Leaving all the chains that bind you  
For... a month away  
For just a day*

*Say it's never too late  
Just take the runway  
I'll be your flightmate  
I'm gliding high  
Don't ever stop reaching  
Keep the horizon bright  
And fly*
