STEINKLOPFER

With the assurance and calm inherent to the true genius, he presented the world with his music that it may learn from his example how to become a great artist, that it may perceive his excellence in its entirety, and love, honour, adore and worship him (just a bit).

Should anyone possess the audacity to express any doubts whatsoever as to the sublimity of his remarkable bum-bum, he ought to consider that he is dealing with a Steinklopfers, who possesses not only intellect and sense, but an excellent pair of fists.
