

IOS201 – 2-Day Advanced iOS – Beyond the Basics (Swift)

In this 2-day course, you will learn about the advanced techniques for writing iOS applications. You will learn more about programming for the following areas – advanced Swift concepts, local and push notifications, accessing hardware, consuming Web services, and app publishing.

Topics

- Understanding Protocols and Delegates
- Sharing Objects
- Asynchronous Downloads and UICollectionView
- Performing Background Fetch
- Using Swift classes in Objective-C projects
- Using Objective-C classes in Swift projects
- Creating Local Notifications
- Apple Push Notification Services
- Implementing Background Fetch
- Taking Photo
- Barcode Scanning
- Consuming REST Services
- Connecting to Microsoft SQL Server
- Ad-Hoc Distribution
- Publishing Apps on the AppStore

Prerequisites

- Attended the **Fundamentals of iPhone Programming using Objective-C** course

Hardware

- Mac
- *iOS devices (recommended)*

Software

- Xcode 7 or later

About Wei-Meng Lee

Wei-Meng Lee is a technologist and founder of Developer Learning Solutions (<http://www.learn2develop.net>), a technology company specializing in hands-on training on the latest mobile technologies. Wei-Meng has many years of training experiences and his training courses place special emphasis on the learning-by-doing approach. His hands-on approach to learning programming makes understanding the subject much easier than reading books, tutorials, and documentations. His name regularly appears in online and print publications such as DevX.com, MobiForge.com, and CoDe Magazine.
