Position Statement on Genetically Modified Organisms (GMO's)

The Scientific Advisory Board (SAB) has been aware of the increasing presence of genetically modified organisms (GMO's) within the Earth biosphere for some years. We have been watching developments closely for more than a decade.

Our primary concerns relate to the introduction of genetically modified DNA, also known as transgenic DNA, into the human food chain. It is our belief that the genetic manipulation that is involved in many of these GMO's could not occur naturally within Nature, and thus would not qualify as "natural" ingredients under our criteria.

Though there has not been any specific research that shows that there is a direct health risk associated with this modified DNA, it is the SAB's position that there are too many unanswered questions for us to allow genetically modified DNA into our products. We have therefore directed all our manufacturers and suppliers to guarantee that all raw materials are free of genetically modified DNA and we monitor the situation closely in our laboratories and factories. Thus, we can say that GNLD products do not contain genetically modified organisms in general or genetically modified DNA in particular.

BOARD MEMBERS:

ANJANA SRIVASTAVA M.S., MBA
Executive Vice President,
Product, Science & Technology
Life Sciences, Botanist

JOHN R. MILLER
Product Technologist, Researcher
Member, New York Academy of Sciences
and Society of Cosmetic Chemists

FRED G. HOOPER, PH.D.
Biochemist, Nutritionist
Noted Product Formulator, Writer & Lecturer

LASZLO P. SOMOGYI, PH.D.
Food Scientist, Nutritionist
Fellow, Institute of Food Technologists

ARIANNA CARUGHI, PH.D., C.N.S.
Nutritional Scientist

DAVID SHEPHERD, PH.D.
Microbial Biochemist
Expert in Food Technology and Phytochemistry

DIANE E. CLAYTON, PH.D.
Biochemist, Nutritionist
Health Practitioner

MARK LOWMAN
Director, New Product Development
Member, American Association of
Pharmaceutical Scientists

FOUNDING MEMBER EMERITUS:
(1914-2005)

ARTHUR FURST, PH.D., SCD., D-ATS
Toxicologist, Pharmacologist
Member, Ten Scientific Societies
Consultant, World Health Organization
