

## How to Share Uth

It is fun and easy to do a party or share Uth with a friend, everyone wants to have better looking skin and this crème delivers. Whether sharing with one or many the system is the same. Follow the steps below;

### 1. Introduce Uth

2. Share before and after pictures. If you have one of your own, show that one too. The energy that this creates in a large group is great.

3. After sharing the pictures, do a before picture on your customer(s), usually around the eye area works best, an iPhone works very well

4. Apply a small film of Uth crème around the area you just took the picture of.

5. Show Dr. Kassir's 6 minute video, it is excellent and tells the story of what make this crème so unique.

6. After about 15 minutes or so, take an after picture of each customer present.

7. Show the before and after picture to customers. Be sure to get their email address and phone # so that you can send them the comparison later. Your customers will generally experience a slight decrease in the look of fine lines, a soft sheen to the skin and a hydrated look. It is at this time that most people want to know how they can purchase the crème. ;-)

What if they want to be a customer?

1. Sign them up as a member.

2. Prepare a signup sheet (corporate form) or one that you created that includes name, address, phone number, credit card info, security code, expiry date, and name on card.

3. Tell the cost is approximately \$130 USD delivered to their door.

4. As a member on an automatic order, they qualify for loyalty points. 25% of every referral is discounted from their next order. With 4 referrals, their next order of Uth is FREE.

Encourage your customers to do a "Better than Botox Party" and secure dates before they leave. Having these parties are a great and fast way to earn credits for your next order. Remember every time someone purchases one Uth crème on an automatic order a child is nourished through MSM with our PhytoBlend technology and takes us one set closer to reaching our goal of nourishing 5 million children.
