

Team Summary

Use the information provided in your team's identity envelopes to complete this worksheet.

Section 1: Family History

Tally the number of people in your team

- who have a history of cancer in their family _____
- who do not have a history of cancer in their family _____

Section 2: Cancer History

Complete the table by writing in the number of people in your team who were diagnosed with cancer during each period of life. Then list the type of cancer each person developed. If no one was diagnosed with cancer, leave the section blank.

Team's Cancer History

Type of Information	Period of Life			
	0–19 years	20–39 years	40–59 years	60+ years
number of people diagnosed with cancer				
type of cancer				

Section 3: Possible Risk Factors

Go back through your cards and identify possible risk factors associated with the development of cancer in the people in your team. List those risk factors here.

Drawing Conclusions from the Faces of Cancer

Complete this worksheet as your class compiles the data from the *Team Summaries*.

Conclusion One: Family History

Conclusion Two: Relationship Between Cancer and Age

Conclusion Three: Types of Cancer

Conclusion Four: Possible Risk Factors

Discussion Questions

1. In this activity, all students in the class assumed the role of someone who developed cancer sometime in his or her lifetime. Is this an accurate representation of the risk of cancer among the American population? Explain your answer.
2. What explanation can you offer for the observation you made about the incidence of cancer compared with age?
3. What is the most interesting or surprising thing you learned from this activity? What is the most important? Why?

Summary Profile of the Faces of Cancer

Type of Information	Accumulated Class Data															
family history (write in the number of "yes" and "no" answers for all teams)	yes _____ no _____															
number of people diagnosed with cancer (write in the total for all teams)	Period of Life															
	0–19 years 20–39 years 40–59 years 60 and older															
type of cancer (write in the number of each)	<table style="width: 100%; border: none;"> <tr> <td style="width: 33%;">bladder _____</td><td style="width: 33%;">leukemia _____</td><td style="width: 33%;">prostate _____</td></tr> <tr> <td>brain _____</td><td>lung _____</td><td>retinoblastoma _____</td></tr> <tr> <td>breast _____</td><td>oral cavity _____</td><td>skin _____</td></tr> <tr> <td>cervical _____</td><td>ovarian _____</td><td>uterine _____</td></tr> <tr> <td>colon _____</td><td>pancreatic _____</td><td>other _____</td></tr> </table>	bladder _____	leukemia _____	prostate _____	brain _____	lung _____	retinoblastoma _____	breast _____	oral cavity _____	skin _____	cervical _____	ovarian _____	uterine _____	colon _____	pancreatic _____	other _____
bladder _____	leukemia _____	prostate _____														
brain _____	lung _____	retinoblastoma _____														
breast _____	oral cavity _____	skin _____														
cervical _____	ovarian _____	uterine _____														
colon _____	pancreatic _____	other _____														
possible risk factors (list any possibly relevant factors)
