

Church Hall for School

We, Telferscot Action Group, note that Telferscot Primary School has already taken two bulge classes. We believe in light of the rising birth rate, increased demand for school places in this area and discussions with the Governors and Head, that we cannot rule out the high likelihood of future bulges and expansion long term.

The land next to the school is available for sale. It presents us with a golden opportunity to take some control over how any expansion might be managed.

This is not an expression of our approval to expand the school unconditionally, but of a desire to grab this chance of a bigger and better site while it may be available to us – it will not be for long.

We, the undersigned, call on Lambeth Council to block the proposed housing development next to Telferscot Primary School and ask them to obtain funds to purchase the land to meet the school's future needs.
