BC

The unions have *really* crossed the line this time!

They are running a new ad on Spanish Language television, trying to scare some of our Chula Vista neighbors into voting against Proposition G.

Here's the English translation of their actual Spanish language ad:

*The new Arizona law discriminates against Latinos.
The police can arrest you simply because you look like you're from Mexico.
Prop G in Chula Vista discriminates here against our community.
Prop G will take away jobs from our community.
Vote No on G. Defend our Community. No discrimination in Chula Vista.
No on G.*

Big Labor will say or do *ANYTHING* to defeat Proposition G because it allows all qualified citizens to compete for construction jobs in Chula Vista, *not just union members.*

National Labor unions have *really* crossed the line this time!

- **Making false claims!** Unions have spent hundreds of thousands of dollars making false claims that Prop. G bans union workers, stops federal funds... even claiming it increases greenhouse gasses.
- **Caught on tape stealing signs!** Over 350 Yes on G Campaign signs have “mysteriously” disappeared. Many were replaced with “NO” signs without the residents’ permission. See the KGTV story at www.FairnessForChulaVista.com.
- **Threats and intimidation!** Unions have gotten their local politicians who are reliant on Union PAC contributions to repeat the lies about Prop G, and to threaten residents with a loss of funding.
- **And, now, racial scare tactics that divide our community.** National labor unions are paying to broadcast crude scare tactics on Spanish language television to divide our community and scare our neighbors with claims of discrimination.

Enough is Enough.

Send a message to the unions... **Vote YES on Proposition G, the Fair and Open Competition Ordinance.**

Every qualified citizen should have the right to compete for construction jobs in Chula Vista!

YES on G
Fair and Open Competition
