我_{わたし}有_あ很_{へん}多_た。

Objectives

This story is designed to reinforce the 有 . . . 也有 . . . practiced in the previous Mini-Book. It also introduces 多 and 少 as well as continuing to expose the reader to everyday vocabulary such as fruits and animals.

Ideas for how to use this book:

- **Use the pictures to set the stage.** Before reading, look through the pictures. What things can your child identify in Chinese? (I see a moon, a cat, etc.)
- **Provide a model.** Read the book once to your child. Point out familiar characters such as 小 and 月.
- **Echo Reading.** If your child can correctly identify ㄅ ㄆ ㄇ but still needs practice sounding words together, consider reading the page to him/her while pointing to each word and then having him/her repeat it back to you.
- **Highlight Important Words.** Ask your child to look for certain sounds or characters and highlight them in the book.
