Midwest Technical Consultant,  
Stone Panels.

**Stonepanels**

*Bricklayers from BAC ADC #1 Illinois  
install StoneLite panels  
on Standard Bank, Chicago, Illinois*

## PROGRAM

This program will educate contractors in the many aspects of lightweight honeycomb reinforced natural stone systems. The participants will learn how this wall cladding system incorporates authentic natural stone reinforced with aircraft quality aluminum honeycomb; the origin, manufacturing process, and product capabilities; installation procedures and types of installation; rain screen and conventional construction; completed new and reclad building examples; cost, strength, and installing speed comparison with solid traditional stone; importance of testing and building code approval and acceptance. A demonstration is included: Four granite panels will be installed over a masonry backup.

Please register me for the Stone Panel Installation training program.
