

ConcussionWise™ Live Program – Frequently Asked Questions

Having educated over 90,000 people from 23 countries in over 120,000 online courses, Sport Safety International is a proven leader in concussion education for coaches, parents, athletes, and health care providers. After numerous requests, Sport Safety International is proud to offer the ConcussionWise™ course content in a live format.

- **What is the ConcussionWise™ Live program?**
ConcussionWise™ Live is a live, classroom-based version of the popular ConcussionWise™ online education program offered by Sport Safety International.
- **Why is Sport Safety International offering a live version of ConcussionWise™?**
You asked and we listened! We've had several requests for live courses, and based on that input, we've decided to offer an option for those groups who wish to provide concussion education for parents, coaches, or athletes in a live, group format as opposed to online.
- **Is this different than the online ConcussionWise™ course?**
No. The live version of the course contains the **exact same information** as the online program, which has already been approved by many states, athletic associations, schools, and recreation programs. Like the online course, the live course covers concussion prevention, preparedness, response, and recovery.
- **Who teaches the course?**
ConcussionWise™ Live is taught by authorized ConcussionWise™ Instructors, who have been trained by Sport Safety International to deliver the live version of the course. Health care providers, such as athletic trainers and nurses, who have experience in concussion education are eligible to become ConcussionWise™ Instructors.
- **How is the course presented?**
The course is administered by authorized ConcussionWise™ Instructors, who show a video of the online ConcussionWise™ course, facilitate discussion during interactive sessions, and answer questions throughout the program. ConcussionWise™ Instructors are required to follow the prescribed course format, and may not deviate from the curriculum.
- **Is there a post-test at the end of the live course?**
Yes. ConcussionWise™ Instructors administer a post-test at the end of the live program, just like the online course.
- **Will I receive a certificate after completing the ConcussionWise™ live course?**
Yes. Attendees who successfully complete the live course will be able to access and print their certificate online. Information will be sent to each attendee via email after the course is over.
- **Will coaches who attend the live course be listed in the ConcussionWise™ Registry?**
Yes. Coaches who successfully complete the live version of the course will be added to the ConcussionWise™ Registry (www.concussionwiseregistry.com), just like those who complete the online version.
- **What else will I receive if I attend the ConcussionWise™ Live course?**
Your ability to learn doesn't end at the live course! You will also be registered for an account on Sport Safety International's Online Learning Academy, where you will be able to review the online version of the course at any time, sign up for other free courses (such as HeatWise™ and CardiacWise™), print your certificate, and receive email alerts reminding you when to refresh your concussion knowledge. Your login instructions will be emailed to you shortly after completing the course.
- **Where can I find a ConcussionWise™ Live Instructor?**
Contact us at learningsupport@sportsafetyinternational.org, and we will help you locate an instructor. In the coming months, we will have an instructor locator feature on our website.
- **Where can I find out more about becoming a ConcussionWise™ Instructor?**
More information on the ConcussionWise™ Instructor program can be found at www.ConcussionWise.com/instructor.
