We are pleased to inform you that Dachs Cuckoo designed by Ryosuke Fukusada is available for purchase from 27th April 2017.

**DACHS CUCKOO**

**A cuckoo clock with a lovely roof that looks like the ears of a dachshund**

Designed by Ryosuke Fukusada  
Made in Japan by Lemnos Inc.

**Brand Concept**

Clocks tick and produce spaces, sometimes like graceful flowers and sometimes like brilliant jewels.

We look at clocks every day and many times, so we want them to enrich your space.

With this concept, Lemnos works with many well-known designers to design a lot of fine items, which are made with the refined skills of craftsmen who maximize the attractiveness of materials for timeless design.

Our innovative Japan-made products are highly reputed and have won many awards in Japan and abroad such as Good Design Award.

We will continue to propose innovative and permanent beauty.

### Dachs Cuckoo - The basic structure coupled with unique details

Dachs Cuckoo is a playful cuckoo clock with a roof that resembles the ears of a dachshund. This roof made of thin metal sheet gives a light touch and demonstrates a modern feel with its outline tracing the window frame. The numbers on the clock highlight the Dachs Cuckoo and the font used is a version of Broadway arranged to fit the outline of its face. This clock is available in three wonderful colors. The brown goes well with natural items such as plants and wood furnishings, and the white one blends well into the background while yellow one adds an accent to the atmosphere. The basic structure coupled with unique details featured in this clock brings out the best of the cuckoo clock.

## DESIGNER PROFILE

### Ryosuke Fukusada

Born in 1979 in Osaka, Japan. He studied product design at Kanazawa College of Art from 1998 to 2002. He then worked for Sharp Corporation in Japan as designer for consumer electronic products until 2007. After transferring to Italy, he graduated from Domus Academy, Master in Interior and Living Design course. From 2008 to 2012, he worked for Studio Urquiola in Milan as assistant designer of product design for Patricia Urquiola. He then started his own design studio in October 2012 in Kyoto, Japan. He currently works with some international clients.

## COMPANY PROFILE

TAKATA Lemnos Inc. was founded in 1947 as a brass casting manufacturing industry in Takaoka-city, Toyama Prefecture, Japan and we launched out into the full-scale business trade with Seiko Clock Co., Ltd. since 1966.

We entered into the development for the original planning from late 1980 and "Lemnos Brand" recognized as the global design clock by a masterpiece "HOLA" designed by Kazuo KAWASAKI which released in 1989.

Afterwards, we made a lot of projects with well-known designers who took in active in Japan and overseas such as Riki WATANABE, Kazuo KAWASAKI, Shin AZUMI, Tomoko AZUMI, Kanae TSUKAMOTO etc. and we made announcement of their fine works abounding in artistry and prominent designs.

Our Lemnos products are made carefully by our craftsmen finely honed skillful techniques in Japan. They surely bring out the attractiveness of the materials to the maximum and create fine products not being influenced on the fashion trend accordingly. TAKATA Lemnos Inc. definitely would like to be innovative and continuously propose the beauty lasts forever.
