A _____ state
some animals go into
during winter. Their
_____ slows
down and lives on
_____ fat and food.

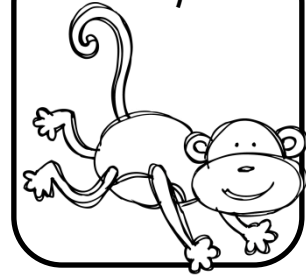

example

Animals have many ways
of defending themselves:

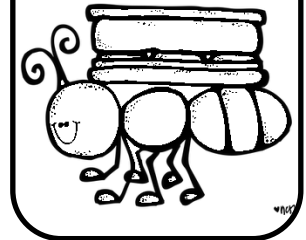

- 1) Run or _____ away
- 2) Play dead
- 3) _____
- 4) Fight back

example

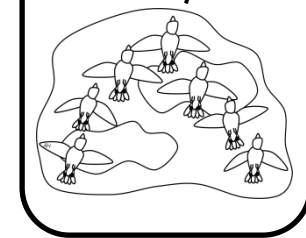

Animals must be able
to move around to
get the food,
_____, and space
that they need.

example

Animals move over
the same
_____ during
the same time each
year.

example

Behavioral Animal Adaptations

Hibernation

Answer
Key

Defense

Locomotion

Migration

Glue here

A resting state
some animals go into
during winter. Their
breathing slows
down and they live on
stored fat and food.

example

Animals have many ways
of defending themselves:

- 1) Run or fly away
- 2) play dead
- 3) spraying
- 4) Fight back

example

Animals must be able
to move around to
get the food,
shelter, and space
that they need.

example

Animals move over
the same
route during
the same time each
year.
