I am a 3 sided polygon with 1 right angle.

I am a quadrilateral with four right angles but not all of my sides are equal.

I am not a polygon! My sides aren't straight.

I am a quadrilateral with four equal sides and four right angles.

I am a quadrilateral with only ONE set of parallel lines!

I have six EQUAL sides and six obtuse angles.

I have five equal sides and five obtuse angles.

I have as many sides as an octopus has legs. A stop sign looks like me.

I have five sides, but they are not all equal. I have two right angles.

I have six sides, but they are not all equal. I only have right angles!

I am a special trapezoid with two right angles!

I am a quadrilateral with four equal sides, but no right angles.
