

# The Pharaoh's Daughter 2017

## Performance Makeup Instructions

In an effort to keep the cost and confusion down concerning performance makeup, we have streamlined our requirements.

- Students purchase a small amount of basic makeup and bring it to the theater in Ziploc bags, **labeled with their names**.
- ASB purchases the specialty eyeshadows and other role-specific makeup, which will be applied hygienically with disposable applicators.
- Students will have all of their makeup applied by a makeup staff in the cafeteria on performance days.
- Students are not required to wear makeup for their dress rehearsal, but may for photographs, if desired.

### **All female students are required to purchase the following makeup items:**

- powder or liquid foundation in the color of the student's natural skin tone
- powder blush in a natural peach or rose tone
- black eyeliner
- one small package of disposable wand applicators (available at CVS, etc). These will be used to apply specialty lip color and eye shadows.
- one small package of disposable foam wedges (available at CVS, etc). These will be used to apply foundation and blush.

### **In a separate bag, please also bring hair supplies:**

- a brush or comb
- elastics
- plenty of bobby pins and/or hairpins
- a hair net
- hair spray and/ or hair gel.

We do NOT supply hair nets for the performances. We recommend doing your child's hair at home before arriving to the theater, according to the teacher's instructions. Your child's teacher will explain how she wants hair done on the day that costumes are handed out. The supplies you bring are for styling touch ups at the theater.

### **Male students are required to bring the following:**

- powder or liquid foundation in the color of student's skin tone
- powder blush in darker skin tone than foundation
- clear lip balm
- eyebrow pencil

Thank you for your attention to these items. **It is very important that Ziploc bags are labeled with your child's name.**
