

# Community Governance Review Update July 2016

At its meeting on 12 July Wiltshire Council agreed the new parish boundary for Box/Corsham is accordance with a compromise which was reached between the parish and town councils. The new boundary, which is due to come into effect next April/May, can be seen below.

The new boundary means that Rudloe housing estate will come under Box Parish Council as opposed to being split, and MOD Corsham, the Data Storage Centres at Spring Park and Wadswick Green retirement village will fall under Corsham Town Council in their entirety. Whilst the boundary might look rather strange on the map, it does address many of the anomalies raised by the local councils.
