

Bayanihan Children's Home

This is the time of year when we send our container over to the Philippines again. I wanted to show a different aspect of this ministry today. Pictured are handmade toys. A lady - I don't even know her name - asked her Pastor one day if there could be any way that she could use this talent to serve the Lord. Our children's home came to his mind and he suggested maybe using her talents to be a blessing to the children there. When we were visiting this church one Sunday, the pastor asked us if we could take two garbage bags full of these toys and put them on the container. We were more than happy to! What a way to use a talent for a special purpose.

This week we also received nine boxes from a church in Michigan. As I understand it, the ladies group there donated and/or bought supplies and made up a package for each child at our home for Christmas. What a special surprise for these kids.

There are so many different ways to make an impact in the world today. These two things may seem small to the women who did them, but they are big things to children in third world countries. Thank you to all of you who partner with us to make a difference in the lives of these children.
