

Hi!

It's the Easter Bunny here!

Are you ready for some MATHS FUN?

Think of a number below 10...

Double it...

Add 6...

Halve it (divide by 2)...

Take away the number you first thought of...

Add 110...

Multiply by 2...

Now, the answers will start to get a lot bigger, so why don't you go and get a BIG calculator and get ready for some more fun!

Ready... OK, put the number you have into the calculator and let's go!

Are you ready for a laugh?

Add 3,210...

Multiply by 8...

Add 54,321...

Add 12,345...

Multiply by 4...

Now, turn your calculator upside down...

Hahaha!

Don't clear your answer yet! Turn your calculator back up the right way and let's keep going!

Are you looking for these?

Multiply by 15...

Subtract 333,333...

Add 1,800...

Now, turn your calculator upside down...

Mmmmmm!

Don't clear your answer yet! Turn your calculator back up the right way and let's keep going!

Maybe you are looking for these?

Subtract 5,252,525...

Divide by 2...

Add 578...

Divide by 41...

Multiply by 7...

Now, turn your calculator upside down...

Yes?

Don't clear your answer yet! Turn your calculator back up the right way and let's keep going!

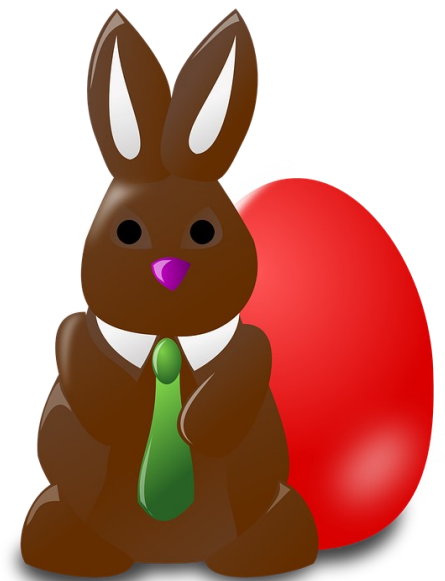

You should look here!

Subtract 5...

Multiply by 10...

Subtract 3,535...

Now, turn your calculator upside down...

Now go and find something special just for you!

Happy Easter from the Easter Bunny!
