

# “Neoplasm: How It Works & How You Win”

**Genetic screening to risk-stratify patients for early diagnostic techniques**

**Presented by Leigh Erin Connealy, MD**

## WORKSHOP TOPICS

- You will learn Four (4) main categories of Cell Dysbiosis
- Understand the “Causes” of abnormal proliferation of tissues
- Learn state of the art Dysbiosis diagnostic testing
- Understand Neoplasm profiles & biological factors
- Utilize nutrients to restore immune functions

**Dr. Connealy** treats the WHOLE person, and is open to all potential treatment possibilities. She has over 25 years of experience in finding the ‘root cause of an illness’, and has taken numerous advanced courses, including homeopathic, nutritional and lifestyle approaches, while studying disease, chronic illness, and cancer treatments.

She has a true passion to change her patients’ lives, and give them their life back. Dr. Connealy feels that we must treat the patient with the disease and not the disease of the patient. She has discovered that many factors contribute to the disease process; therefore, many modalities must be used to reverse it.
