FOR IMMEDIATE RELEASE

Cuero, TX Deploying Nexgrid's Smart Grid Solution

Fredericksburg, VA. August 15, 2016 - Nexgrid, a leader in high-speed standards-based smart grid solutions that enhance energy efficiency and utility operations, announced that Cuero, TX selected Nexgrid for a full scale roll-out of a smart grid and advanced metering of the cities electric and water meters. The deployment consists of Nexgrid's street light mounted Multi-Mesh® solution to deliver advanced utility services to the city.

After reviewing proposals from a number of Smart Grid technology companies, Cuero selected Nexgrid on the basis of their sophisticated multi-tier architecture and proven technology that is easily installed and maintained.

The deployment provides operational improvements and enhanced billing capabilities for Cuero. Nexgrid's system provides real-time outage notification, distribution management, electric and water meter reading, advanced analytical capabilities for energy usage, customer web portal, and intelligent streetlight control. It is estimated to be finished in October 2016.

"We are honored to have been selected by Cuero to implement their smart grid system," said Costa Apostolakis, Chief Executive Officer at Nexgrid. "Cuero has taken a very thoughtful and innovative approach to smart grid technologies, focusing on a real-time, easy to deploy solution that is secure and future proof."

About Nexgrid

Nexgrid, LLC is a US based company that provides an end-to-end solution for wireless smart grid and advanced metering. Nexgrid's products provide utility companies and consumers the ability to manage and monitor their smart grid and smart home networks. Their solutions utilize high speed, 100% standards-based communications providing real-time data that enables energy management and utility operations. In addition to advanced metering of electric, water and gas, Nexgrid manufactures load control devices, capacitor bank controllers, thermostats and street light control hardware. Lastly, their ecoOne enterprise software provides meter data, network, load control, street light, outage and customer portal management all in one easy to use platform.

About The City of Cuero

Our citizens are proud of Cuero, which is recognized as a Preserve America city, one of the Coolest Small Towns in America, a Retirement Community as designated by Texas Department of Agriculture, Turkey Capital of the World, and home of the Fightin' Gobblers, as a city that offers an outstanding quality of life. In July of 2015 Cuero was named a 2015 Playful City USA Community.
