Beginner's Tips:

When "it's all Greek to me!"

If you only know your Sun sign and read the generic horoscopes in the paper or online, you're missing so much of what's shown about you in a full natal chart.

If you're going to just read your Sun Sign horoscopes at least read Brezny: <http://www.freewillastrology.com/horoscopes/> (<http://www.freewillastrology.com/horoscopes/>)

The full natal chart is an image of the sky at the moment of a person's birth. The line of the horizon marks the beginning of twelve sections, called houses. The 12 zodiac signs are also shown. The degree lining up with the birth minute will fall in one of these signs, which is then called the Ascendant or the Rising Sign. This is known to influence a person's appearance.

Astro.com (<http://astro.com>), formerly Astrodienst, is a great source for a free astrology chart. You will need to enter your birth date, time and city.
