

MAKEUP LISTS

SUMMER – WINTER PHLEGMATIC - MELANCHOLIC T2/4
aka MOONLIGHT SUMMER, COOL SUMMER

MOONLIGHT SUMMER – (Summer mixed with Winter) Hair coloring: dark ash brown to brunette or silver hair, and double blue skin tone, that could place them in Winter, but they do not drape best in dark Winter colors (though it is possible they could wear black and it can be added to their fan). Their fan may include black

or charcoal-gray, best worn with white or cream. They often have rosy cheeks and a light rose-beige complexion. If hair is dyed too warm, their skin will appear red and patchy. Eyes are most often deep or icy blue, but might also be light green, medium gray or soft brown (though brown eyes are rare for Summers). Summer eyes are translucent or mottled with wide band around iris (often gray). They often have darker eyebrows than other summers.

Blush should also be a blue-red applied lightly. You may go darker in your colors depending on how much contrast you have. Stay away from peach. Eyeshadow colors can be blue, frosty pink highlight, brown or lavender. If your eyes are blue, don't wear green eyeshadow as it will compete with their color. Use navy blue, soft brown or gray eyeliner.
