

History of The Andersen Company

AMERICA'S PERFORMANCE MAT MANUFACTURER

The Andersen Company legacy began in 1974. Since those early beginnings, The Andersen Company has become the leader in the development and production of solution based high performance mat products. Our commitment to customer service, fast accurate shipments and product quality is unsurpassed.

With beginnings in the Janitorial/Sanitary supply markets, we have grown and expanded into a variety of other markets including Safety/Industrial, Food Service, Floor Covering and Commercial Catalog markets. In all of these markets, we have built our business and reputation on two fundamental principles: **Do what is right** and **do what is best for the customer**. Our 100% Customer Satisfaction Guaranteed warranty is rooted in these basic principles.

In 1999, The Andersen Company became a division of Mountville Mills forming what has become the largest commercial mat manufacturing company in the world, operating three mat manufacturing plants and two rubber compounding plants in Georgia. In addition, we have a distribution facility in Ontario, Canada, a mat manufacturing plant in Ronse, Belgium and a sales office in Guangzhou, China.

The Andersen Company is committed to reducing our environmental impact. We are continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods. We have reduced waste going to landfills by 80% and recycle most paper, metal, cardboard, plastic, carpet and rubber waste we generate. Our commitment is also evident in our development of over 50 mat styles that contain recycled raw materials.

The Andersen Company's high quality and innovation are known worldwide. Our continuous development of new technologically advanced mat products assures our customers that Andersen mats are unparalleled in quality and performance. Some of our notable innovations include Waterhog entrance mats, Hog Heaven anti-fatigue mats and digitally printed Classic Impressions Logo mats to name just a few.

Our product offering has steadily grown to include over 70 products in a myriad of colors and sizes. These products range from entrance mats to interior finishing mats to industrial mats for anti-fatigue and traction control. Whatever the mat need may be The Andersen Company has a solution.
