

We're now a Distributor for the **green** Viking Air Movers

The only air mover that draws only 1.6 amps with daisy-chain capability!

With the onboard GFCI, the ECO Cam Pro allows daisy chain capabilities for up to 8 units on a single stage 15-amp circuit. This single speed centrifugal airmover delivers a powerful 3000 FPM of air while drawing a meager 1.6 amps \pm 0.2, making it the greenest airmover on the market today!

Features:

- Lowest amp draw
- High velocity air flow
- **Daisy-chain capability with 8 units on a 15 amp circuit**
- Most even airflow
- 3 Operating positions
- CSA Approved
- Built-in cord wrap
- Easy grip handle
- Stackable for storage
