

All-In-One Baby Cardigan

margcoe@nexicom.net February, 2005

Any Machine – Make a Tension Swatch to determine sts/rows per inch.

SAMPLE IS IN BLUE FOR CLARIFICATION PURPOSE ONLY

E-Wrap cast on over _____ needles. (19" x number of sts/inch)
Knit to row count _____ . (8" x number of rows/inch)
Bind off _____ stitches. (1/4 of the total number of cast on sts.)

E-Wrap cast on those same ____ stitches.

Pull these needles to E Position (this makes knitting these stitches easier)

Knit one row.

Bind off ____ stitches (1/4 of the total number of cast on sts.)

E-Wrap cast on over these same ____ stitches.

Pull these needles to E Position - again to help them knit off. RC000

Pull end ____ needles to E Position for a few rows (this just helps them knit off properly)

Knit _____ rows. (5 1/2" x number of rows/inch)

Bind off _____ CENTER stitches. (1/4 of the total number of cast on sts)

Put one half in hold. Engage your HOLD Buttons.

E-Wrap cast on _____ stitches in center of piece you are going to knit on. (1/2 of the total number of center sts)

Since the other stitches are on hold pull these new stitches to UWP – C on most machines a few rows or until you can get some weights on this front neck opening.

Knit _____more rows. (5 1/2" x number of rows/inch)

Bind off (front bottom of sweater)

Go back to the stitches in hold and E-Wrap cast on _____ stitches at the center – (same as other side). Disengage your HOLD Buttons.

Pull these _____ stitches to C Position for a few rows and hang weights.

Knit _____ rows. (5 1/2" x number of rows/inch)

Bind off (other front bottom of sweater).

The size of the sweater will depend on the Machine and Yarn you use. Enjoy!
