

Seating Rights

The following members have been granted seating rights by the Bridge Committee. If asked to move to accommodate one of these please do so. Your understanding and co-operation is appreciated.

Seating Rights grants the player the right to be seated during a movement. It does not grant them the right to a specific seat. In addition the TD may, depending on the movement, not always be able to accommodate all players with seating rights. Players are expected to be as accommodating as possible in this situation.

If you have any queries please contact me.
