

The Virtual Presenter's Backstage Pass - beta

If you ever wanted to go deep with virtual presentations and classrooms, this is the place. There's more here than we could cover in a week of working together.

The Virtual Presenter's Backstage Pass started as a way to capture anything and everything from me for my tribe...those who want access to me since I can't otherwise respond to every question that comes in.

The current version of the Pass has three components:

1. All the stuff on list below,
2. Access to sending me any question any time and getting an answer, and
3. Updates for a year if I add anything to this (so far that's every month, but If I get hit by a bus, it could be zero...I trust that just what is below is worth more than what I'm asking for :).

Want to share or add this to your organization's resource library? I hope this makes it easy: The Backstage Pass is just \$300. If you would like multiple passes for your entire organization, shoot me an email and request a quote.

Finally, future updates will be driven by you. If you're a Pass holder, shoot me what you want to see.

To your successes!

Roger
