Address

119 Lutz Rd. Boyertown, PA 19512

Profile

I will always rise to the challenge, no matter how impossible it appears. My most recent accomplishment was completing my graduate program in fifteen months instead of two years.

Art has always been a way of life for me. It allows people of many different backgrounds to connect through a simple, but sometimes complex, way of expressing themselves.

Art is connected to many other disciplines, such as math and science. To me this means that art holds infinite possibilities.

Administrative Knowledge

During my career at Drexel I learned grant writing, leadership techniques, technical writing, fundraising, basic financial management, international cultural policy, preliminary law concerning the arts, human resources management, strategic planning and a variety of other artist management techniques.

Education

Drexel University.....Sept 2013 – Dec 2014

- Master of Science: **Art Administration**
- Finishing GPA: 3.9

Chester College of New England Class of 2010

- Bachelor of Art: **Fine Arts**
