

GENERALLY	NOTES
The home is large enough to meet the occupants requirements, but not too big to increase energy use for heating, cooling and cleaning.	<input type="checkbox"/> YES <input type="checkbox"/> NO
SUSTAINABLE COMMUNITIES	
The site allows for good solar access.	<input type="checkbox"/> YES <input type="checkbox"/> NO
The character of surrounding streetscape has been addressed.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Sustainable landscaping and plant selection have been included.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Biodiversity impacts on the site have been addressed.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Transport and its implications on design have been addressed.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Noise issues around the home have been addressed.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Erosion and sediment control on the site have been addressed.	<input type="checkbox"/> YES <input type="checkbox"/> NO
DESIGN FOR LIFE	NOTES
The home is adaptable for future changes in occupant lifestyles and accessible for all.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Safety and security issues around the home have been addressed.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Indoor air quality has been addressed with the choice of non toxic materials and finishes.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Bushfire risks have been addressed.	<input type="checkbox"/> YES <input type="checkbox"/> NO
PASSIVE DESIGN	NOTES
The main living areas are orientated north to maximise winter sun and minimise summer sun.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Rooms are zoned or grouped and divided up as needed for economical heating and cooling.	<input type="checkbox"/> YES <input type="checkbox"/> NO
The house is sited in a suitable location to avoid overshadowing problems from neighbouring buildings.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Eaves or other shading devices have been incorporated to provide shading from summer sun and allow winter sun to enter.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Windows located on the east or west have been avoided or minimised and provided with adequate shading.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Windows and doors are located to get good natural cross ventilation and to ventilate bathrooms and wet areas.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Windows are located and sized appropriately to provide natural daylight and winter sun penetration, while avoiding summer overheating.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Living area windows (minimum) or all windows are double glazed.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Maximum insulation has been provided in the roof, walls and floor.	<input type="checkbox"/> YES <input type="checkbox"/> NO
There is appropriately designed thermal mass internally to moderate indoor air temperatures.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Ceilings are high enough to accommodate ceiling fans.	<input type="checkbox"/> YES <input type="checkbox"/> NO

MATERIALS USE	NOTES
Materials used have low environmental impact and/or embodied energy.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Recycled materials or materials with recycled content have been included.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Local materials and suppliers have been included.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Building materials and appliances are durable and low maintenance.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Materials are designed efficiently to minimise waste, and are designed for recycling, re-use and/or disassembly.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Materials have been included that moderate indoor temperatures – thermal mass – and improve indoor air quality.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Light and dark coloured materials have been included to reflect and absorb heat as appropriate.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Demolition materials from existing structures have been designed for re-use, recycling or disposing of appropriately.	<input type="checkbox"/> YES <input type="checkbox"/> NO

ENERGY USE	NOTES
Draughts and air leakage have been adequately sealed.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Heating and cooling systems are energy efficient and appropriately sized.	<input type="checkbox"/> YES <input type="checkbox"/> NO
The star rating of the home is more than the minimum 5 star required.	<input type="checkbox"/> YES <input type="checkbox"/> NO
The amount of lighting has been minimised and is energy efficient.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Appliances (whitegoods, TVs, DVDs, computers etc) are energy efficient.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Solar hot water has been included.	<input type="checkbox"/> YES <input type="checkbox"/> NO
The hot water system has been sized appropriately for the number of occupants.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Renewable energy sources (such as PV) have been included.	<input type="checkbox"/> YES <input type="checkbox"/> NO

WATER USE	NOTES
Taps, hot water systems and other appliances are water efficient.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Hot water pipes are insulated and lengths of pipes kept to a minimum.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Rain water storage tanks have been included.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Stormwater capture or retention systems have been included.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Outdoor surfaces and vegetation to retain water have been included.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Outdoor areas with water retaining finishes and vegetation are being appropriately considered to ensure no detrimental impacts from construction ie. compacted grass areas.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Greywater recycling systems have been considered.	<input type="checkbox"/> YES <input type="checkbox"/> NO
Low water use toilets have been considered.	<input type="checkbox"/> YES <input type="checkbox"/> NO
